

Everyone Can “Be Creative @ the Library” This Summer!

The Collaborative Summer Reading Program Diversity Committee has been working on creating Summer Reading Program tools that assist libraries in providing better access for visually impaired children. Information about ordering tactile materials for use with some of the activities provided in the 2009 SRP manual and information about adding Braille to reading certificates and other items is available here (insert links).

Visit the Diversity section of the CSLP web site (<http://www.csllpreads.org/learning-tools/diversity.html>) (<http://www.csllpreads.org/learning-tools/diversity.html>) for) for additional resources.
